FLOOD & WATER LIVE 2023

05 - 06 JULY 2023 | CARRINGTON, LINCOLNSHIRE, UK

Hosted by:

Supported by:

Dyson farming

www.FLOODANDWATER.co.uk

WELCOME TO

FLOOD & WATER LIVE 2023

ADA looks forward to offering a warm welcome to everyone attending our flagship event, Flood & Water Live taking place on 5-6 July 2023. This unique working demonstration and exhibition for the UK, will highlight innovations in sustainable water management and flood resilience.

Flood & Water Live 2023 will be held on Dyson Farming's Carrington Estate near Boston, Lincolnshire in partnership with the local Witham Fourth District Internal Drainage Board. Our sincere thanks go to both these show partners, with whom this specialist event has been made possible.

Our last event of this kind took place a decade ago, so we hope that the much-anticipated return of this show will live up to your expectations, and beyond.

The live event will utilise adjacent watercourses and embankments, enabling visitors to discover the latest plant machinery, pumps, and maintenance equipment in action. Over 60 exhibitors will be there, many demonstrating their most recent carbon friendly kit combined with procedures for delivering biodiversity enhancement when managing watercourses and water infrastructure.

Alongside the equipment suppliers, we have some of the best service providers to the sector wanting to discuss your needs and do business with you.

ADA's ethos is about bringing people, public authorities, and businesses together, for the mutual benefit of the water level and flood risk management. What better way to do that than spending time at Flood & Water Live. We look forward to seeing you there alongside other experts, suppliers, public authorities, land managers, and infrastructure providers from across the sector.

REGISTER TO ATTEND

The event is free to attend and if you haven't already registered online, please [REGISTER HERE](#).

David Sisson, Event Manager

DISCOVER

See the latest equipment and technology at close quarters in a working environment.

LEARN

Encounter new ideas and services for sustaining our water infrastructure and environment.

MEET

Connect with experts, suppliers, authorities, land managers, and infrastructure providers.

INNOVATE

Find solutions to our changing climate and help build a more resilient landscape.

WHAT'S HAPPENING

 Exhibitors

Flood & Water Live includes over sixty exhibitors representing specialist suppliers and contractors offering technology and solutions to meet today's water management needs across flood risk, irrigation, and water resources. You can find out more about all of this year's exhibitors starting on page 22.

 Working Demonstrations

The working demonstration areas are what make Flood & Water Live special. Having the opportunity to see plant and equipment operating in the field is invaluable for getting a better understanding of their capabilities and to talk to operators.

WATERCOURSE

RAISED EMBANKMENT

There are two demonstration areas:

WATERCOURSE | Along the Twenty Foot Drain that is managed by Witham Fourth District IDB, you can find excavators, power arm mowers, weedboats, and more in action from:

An environmental approach to water & land management

Reliable Solutions

...reaching out

RAISED EMBANKMENT | Surrounding one of Dyson Farming's raised reservoirs to see the latest slope and remote-control mowers from:

In addition, Shelton Drainage are demonstrating their specialist agricultural and amenity drainage equipment in a field plot at the southern end of the exhibition area.

For your safety when watching the machines being demonstrated please keep behind any safety lines/fences and obey the instruction of the demonstration staff present.

WHAT'S HAPPENING

Farm Tours

Dyson Farming are highlighting their circular-economy farming system, with free tours of their state-of-the-art strawberry glasshouses and anaerobic digestion plant on both days of Flood & Water Live 2023.

The pre-booked small group tours of Dyson Farming's Carrington farm provide a behind-the-scenes look at their operations. You'll discover how Dyson

Farming generate power from crops grown on their farms and how this benefits their strawberry crop in their 15-acre state-of-the-art glasshouse.

Each tour should last approximately 1.5 hours starting at either 10.30 or 14.00 from the Dyson Farming stand S23. Please meet on the stand five minutes before your tour is due to leave.

WHAT'S HAPPENING

Free health checks

The Lincolnshire Rural Support Network (LRSN) is a volunteer-led organisation that provides pastoral and practical support to Lincolnshire's farming and horticultural communities during periods of anxiety, stress, and problems relating to their families and businesses. Call LRSN's helpline, on 0800 138 1710, if you need support, it's open from 8am to 8pm every day of the year.

On Wednesday 5 July, LRSN's nurse will be

offering confidential health checks at Flood and Water Live. Nurse Heather offers blood pressure, cholesterol and blood sugar tests and is happy to talk through any health issues or concerns you have. The checks take about 15 minutes and are free. Come and meet LRSN staff and volunteers at the event and find out more about what they do and how you can help LRSN to support Lincolnshire's farming and horticultural communities. Visit www.lrsn.co.uk, and follow LRSN on Twitter, Facebook, Instagram and LinkedIn.

WHAT'S HAPPENING

 Networking Dinner

ADA are delighted to be hosting the Flood & Water Dinner at the Petwood Hotel in Woodhall Spa on the evening of Wednesday 5 July 2023, starting at 18.30.

We look forward to a great evening of networking and connecting with friends, colleagues and industry stalwarts from across the flood and water sector. After

dinner, we will be delighted to hear from our guest speaker, Stuart Roberts, Hertfordshire farmer and Former Deputy President, NFU.

A handful of tickets may still be available, if you are interested in attending please [BOOK HERE](#).

WHAT'S HAPPENING

 ADA Drop-in sessions

Come and visit ADA's stand at the entrance to the Exhibition Marquee to meet the ADA team throughout the event.

We will also be hosting informative drop-in sessions between 11.00 and 13.00 on both days to discuss two important projects being developed for better managing water in England's lowland landscape:

Fens 2100+ | The Fens and coastal lowlands are a unique landscape at the forefront of climate change. The Environment Agency are embarking on a long-term plan for managing future flood risk in the Fens, including developing ways of adapting to flooding and drought. Find out more with members of the Environment Agency's project team.

Lowland Agricultural Peat Small Infrastructure Pilots (LAPSIP) | Come and talk to the ADA team commencing a Defra funded project to provide small capital grants to internal drainage boards in order to develop small scale water level management infrastructure that will serve to enhance the conservation of lowland peat, whilst seeking to not increase the risk of flooding.

ENJOY YOUR VISIT

 Food & Drink

A variety of hot and cold food and drink will be on sale in the Catering Court from Lincoln based Imp & Maker who source the finest products from the best makers in Britain and beyond.

 Toilets

Toilets, including disabled facilities, are located to the north of the exhibition field along from the Exhibition Marquee and Catering Court.

 Opening Times

Wednesday 5 July: 09.30-16.30

Thursday 6 July: 09.30-16.30

 First Aid

The first aid station is located adjacent to exit of Exhibition Marquee. If first aid is required, please inform any show stewards or the reception team in the Exhibition Marquee, and a first aider will be contacted.

First aid is being provided by Singleton Associates Ltd who will have trained paramedics on site.

 Taxis

Local taxi companies in the Boston area include:

- AbbeyTaxis Of Boston (01205 353 333)
- Nick's Taxis (01205 615 055)
- Swift Taxis (01205 311 123)

 Security

We will have show stewards on site throughout the event, however we would advise that you keep all personal items with you at all times.
